⑥ 以下の英文を読み、後の問いに答えなさい。

Edinburgh in August

Edinburgh, the capital city of Scotland, is famous for its festivals. Scotland's Edinburgh Festival Fringe is the largest arts festival in the world. It is held over 25 days in August every year. The first Edinburgh Festival Fringe was held after the Second World War*¹, in 1947. Anyone can give a performance at the festival and any type of performance is acceptable*². There are theater shows, circus acts, children's shows, musicals, operas, exhibitions*³, and other events.

There is another festival of performing arts held at the same time in the same place. It is called the Edinburgh International Festival. So, why does Edinburgh have two very similar festivals in the same place at the same time? In 1947, the first Edinburgh International Festival was held, but organizers*⁴ only invited eight theater companies. They provided*⁵ the best theaters for them to use. Many other performers wanted to join the festival, but the main theaters were all taken. So, they rented rooms in other buildings in Edinburgh and sold tickets. People who were in town to see the Edinburgh International Festival also watched these smaller shows. Over time, the smaller shows became more important and more popular than the main shows and it became a separate*⁶ festival. It was given its own name, Festival Fringe.

One unusual*⁷ thing about the Fringe is that performers can do any type of show they choose. They just have to pay some money to the Fringe's organizers. As a result, there are always a lot of strange and interesting shows at the Fringe. However, some people say that the quality*⁸ of many of the shows is poor.

Although*⁹ performers at the Fringe sell tickets for their shows, many of them lose money. This is because they must pay for advertising*¹⁰ and a place to perform, as well as give money to the organizers. But if their shows are popular, they can become better known and get the chance to do their shows in other places. Many actors and comedians who have performed at the Fringe have later appeared in movies and on television. This is one reason why it seems likely that the Fringe will continue to grow.

The Fringe Festival is now the largest of the festivals. In 2018, it featured*¹¹ more than 55,000 performances of 3,548 different shows in 317 venues*¹². There are circus, music, dance, comedy, theater performances and much more. Comedy is the most common performance: over a third of the shows are comedy.

People come to the festival for another reason. This is the climate. August is very

hot in most places, but Edinburgh is far north, so it is quite cool even in summer. This makes it a great place to visit in August. Therefore, people from all over the world come to see the performances and enjoy the cool days.
